5 Data analysis 4 Client ?

? ? ?

Other Skills or Experience

1. I participated the American Mathematical Modeling competition as a programmer in the team before and I know how to communicate more efficiently with the team member.
2. I worked on the project of big data about education and health before so I get the experience of coping with a big project.

3. I used to be a volunteer to host foreign leaders in an International competition so I know how to get along with foreign people and I believe it can save a lot of time.
